

I. Overview

A. Chem. Review

II. Water

1. micells

III. Acids and Bases

1. hydronium ions

IV. Buffers

A. History

B. How work

1) ionization constants

2) pK_a

C. Titration Curves

D. bicarbonate / carbonic acid sys

E. Phosphate buffering system

V. Clinical pH changes

A. Acidosis

B. Alkalosis

VI. Quantitating Buffer Systems

A. Henderson-Hasselbalch Equation

B. Physiological

VII. Summary
